Liberty Dental Plan of Missouri

hereinafter referred to as LDP MO, or as the Company. Its administrative office is located at 340 Commerce Suite 100, Irvine, California, 92602. This examination began on April 14, 2015 and concluded on the above date.

SCOPE OF EXAMINATION

Period Covered

This is the first examination for the Company and covers the period from September 23, 2010 through December 31, 2014. This examination also included the material transactions or events occurring subsequent to December 31, 2014.

Procedures

We conducted our examination in accordance with the National Association of Insurance Commissioners' (NAIC) Financial Condition Examiners' Handbook except where practices, procedures and applicable regulations of the Missouri Department of Insurance, Financial Institutions and Professional Registration (DIFP) and the statutes of the State of Missouri prevailed. The Handbook requires the planning and performance of the examination to evaluate the Company's financial condition, assess corporate governance, identify current and prospective risks of the Company and evaluate system controls and procedures used to mitigate those risks. An examination also includes identifying and evaluating significant risks that could cause an insurer's surplus to be materially misstated both currently and prospectively.

All accounts and activities of the Company were considered in accordance with the risk-focused examination approach. This may include assessing significant estimates made by management and evaluating management's compliance with Statutory Accounting Principles. The

examination does not attest to the fair presentation of the financial statements included herein. If, during the course of the examination an adjustment is identified, the impact of such adjustment will be documented separately following the Company's financial statements.

The examination report includes significant findings of fact and general information about the insurer and its financial condition. There may be other items identified during the examination that, due to their nature, are not communicated within the examination report but separately communicated to other regulators and/or the Company.

The examination was a coordinated examination with the State of Nevada serving in the capacity of the lead state and Missouri (MO DIFP) as the participating state.

Reliance Upon Others

Although each of the affiliated companies within the holding company group write in a specific jurisdiction, the affiliated companies share the same operating systems, employees and management. Various workpapers, documents, and other information provided by the lead state were relied upon during our examination of LDP MO.
